PRESIDENT'S REPORT

To The Honorable State Board of Education:

Herewith I beg leave to submit the twenty-fourth annual report of the Montana School for the Deaf, Blind and Backward Children, beginning with December 1, 1917, and extending to November 30, 1918.

ATTENDANCE

The war seems to have touched our school for the Department for the Deaf is made up, for the most part of smaller children. The department for Backward Children, however, is still running at capacity. In this department, including the Farm Colony there are 117, in the Department for the Blind 18, and in the Department for the Deaf 80, making a total 215. However, we expect a few more deaf in if the "Flu" dies out.

CONVENTION

A convention of the superintendents, principals and teachers of the Blind was held at the State School in Colorado Springs and Miss Haugan, Director of Music, Mr. Morris, a teacher, and the President were able to attend. Here this body formally ratified the previous action of the Workers for the Blind, thereby establishing a single system of tactile print for all the blind of the United States.

Many valuable papers were read but the one we were all most anxious to hear on—"Caring for our Blinded Soldiers," was not given owing to the fact that Mr. Burritt, who was to have given it, was unable to be present. Mr. Burritt is one of the big men in the profession.

Dr. Argo, Superintendent of the Colorado School, and his wife cannot be exceled as host and hostess and they together with their efficient force of helpers and the good people of Colorado Springs entertained us royally both at the school and on drives through the interesting country surrounding their city.

HEALTH

I am sorry to report 6 deaths—the first in several years. During all of last year we remained well in spite of the epidemic of scarlet fever which swept the country; but this year the Influenza came with the return of the children and up to this time has claimed six victims.

FAUCLTY CHANGES

Our faculty roll contains several new names.

In the Department for Backward Children, the Misses McKinnon, Johnson, and Whitaker resigned and their places are filled by the Misses Vanderbeck, head teacher, Taylor and Sommers. All have had Institutional training, Miss Vanderbeck and Miss Taylor having received theirs at Vineland.

The Blind Department remains as it was last year.

In the Deaf Department, the Misses Taylor, Wells and DeVerter, and Mrs. Wolpert resigned and their places are filled by the Misses Nordyke, Buhrer, Logeman and Elliott.

DISCIPLINE

Very seldom do we have any trouble with discipline. It is all managed by means of privileges and unless some child who really belongs in Warm Springs or Miles City is sent to us, we have no trouble.

FINANCIAL STATEMENT

Total Income	\$15,635.55
Total Expenses of Ranch	9,874.65
	\$5,760.90

We have laid floors in the horse barn and turkey house, built setting boxes in the turkey house, dug and re-filled one-half mile of ditch, removed fifty yards of gravel from the ranch yard, and gathered and hauled away large stones from all over the yard and with these ballasted a road which was a mudhole. Beside this, we unloaded 31 cars of coal, and broke 8 acres near the Deaf and Blind building, broke up three acres of meadow, ploughed and put in 48 acres of wheat and rye on shares, and have put in 30 acres of winter rye on shares. We also put up 16 tons hay on shares for Mrs. Clara Wright, realizing 8 tons from this cutting.

Respectfully submitted,

Frank H. Dean,

Ranch Foreman

HAMMOCK AND CHAIR CANING SHOP REPORT.

To H. J. Menzemer, President:

I have the honor to submit the following report for the year 1917—1918.

Last winter and spring, we made five hammocks and caned five chairs. Henry Russell, Pat Callahan and George Ellis were the only boys who worked. This fall Pat Callahan and Jacob Roberts are the only boys working. We have not been able to get any chairs for the smaller boys to work on. Each of these boys has nearly finished caning a chair.

Respectfully submitted,

Joseph Adams Morris, Instructor

REPORT OF THE MUSIC DEPARTMENT.

To H. J. Menzemer, President:

I have the honor to submit the following report for the year 1917—1918. Fourteen piano pupils, three violin pupils, one voice pupil and three piano pupils.

I still continue to take each pupil every day and find the results more profitable, as they are continually under my supervision.

This past year, I took great pleasure in teaching a number of songs to the little ones, which they enjoyed. Their work in this was satisfactory enough so that they could appear on society programs, as well as the closing exercises.

We are doing work in ear training and some elementary work in harmony, which is very necessary to the study of music.

The music pupils have done very satisfactory work on society programs and recitals, which gives them assurance in appearing before people.

Respectfully submitted,

Agnes Haugan, Director.

BLIND INDUSTRIAL WORK.

To H. J. Menzemer, President:

It has been my pleasure to direct the industrial work of the blind girls. They have all learned to do plain hemming, sew on buttons, some to crochet, and some to knit. This not only helps them to be independent of others, but gives them something to pass their leisure time with.

Finished work:

2 corset covers

1 dresser scraf

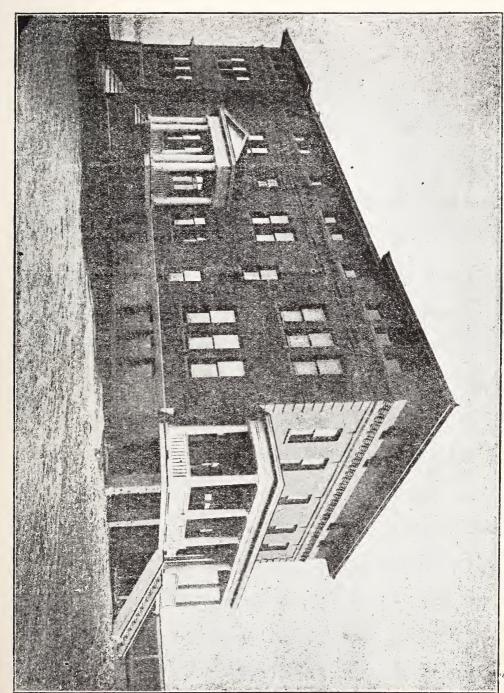

2 table runners 1 crochet nut set At present the girls are knitting squares for an afghan.

This work is enjoyed by all of the girls.

Respectfully submitted,

Agnes Haugan,

Instructor.

SEWING ROOM REPORT.

To H. J. Menzemer, President:

I have the honor to submit the following report for the year 1917—1918.

ARTICLES MADE.

4 Large Laundry bags 12 Washclothes for Hospital crocheted edges

8 Aprons for Dining room

8 Gingham dresses

54 Pillow slips

16 Dresser scrafs-plain

10 Bean bags

2 Gymnasium bloomers

3 Middies

12 Aprons for kitchen 4 White dress skirts

36 Bath towels

41 Sheets

72 Wash cloths—plain

30 Handkerchiefs

Beginner's Class

8 lbs. Carpet rags

Made several costumes for February 22, and the October 31st parties.

ALERATIONS MADE

60 Dresses faced

1 Coat altered 6 Dresses altered 3 Aprons faced

4 Petticoats

AVERAGE WEEKLY MENDING.

70 Pairs of stockings and socks 100 Pieces of miscellaneous mending

FANCY ARTICLES MADE.

5 Pillow tops embroidered

2 Fancy aprons

2 Prs. infants' shoes

5 Centerpieces with tatted edge

5 Centerpieces with tatted

1 Embroidered towel straps

1 Hat

1 Bath towel-crochetted edge

3 Infants bibbs

5 Fancy work bags

2 Table runners

1 Infants' Gertrude skirt

2 Scrafs crochetted ends

1 Collar and cuffs set-hemstitched

2 Corset covers, embroidered

2 Towels- crochetted edge

2 Hair pin cases

1 Pin cushon

3 Rubbers' cases

1 Bridge table cover

2 Embroidered laundry bags

2 Embroidered towers

1 Infants' nightengale

1 Set knives-forks-spoons case»

2 Knitting bags

3 Laundry cases

4 Caps crochetted

1 Child's apron

1 Colar embroidered 1 Pr. pillow slips

1 Damedon moses or a

1 Powder puff case

1 Neddles and pins case

Just now we are very busy getting articles made for our Annual Sale, December 6th, and the girls are all showing a great deal of interest in learning to make the new and pretty things. We are trying to impress them with the idea that it is not always the elaborate things that are useful, but that many inexpensive articles make useful and acceptable Christmas gifts.

The class of Fourth Grade girls, who were not with us last year, are doing good work and seem anxious to learn something new every day.

Miss Ruby McDowell has a beginners class who are taught to do their own mending and also are learning to do simple stitches, etc. There are ten little girls in this class. They are always ready to begin their work, especially since the splendid new nursery chairs were provided for them.

Respectfully submitted,

Edna C. Bartley,

Teacher of Sewing.

CARPENTER SHOP REPORT.

To H. J. Menzemer, President:

6 Trunks

20 Chairs

I have the honor to submit the following report for the year 1917—1918.

NEW ARTICLES MADE.

1 Cedar chest	2 Blacking stands
3 Waste baskets	2 Hampers
1 Office desk	1 Book rack
2 Tables	1 Reach for wagon
1 Teacher's desk	2 Doors for root cehar
1 Long rack for combs and brushes	28 Screens for windows

Petitioned a room for shower baths in the Boys' building. Built new shelves for supplies in the Girls' Hall. Made a new cabinet for the Monitor Printing Office.

REPAIRS

1 Dresser

6 Rocking Chairs 20 Shades	5 Swings 4 Patches on celling and walls	
Upholstered and repaired 36 chairs f		

new steel ceilings on walls and ceilings in the dressing rooms of the gymnasium

We also have made repairs which are too numerous to mention.

PAINTING

2800 sq. feet of walls and ceilings in the Girls' Hall 2000 sq. feet of walls and ceilings in the Gymnasium 2500 sq. feet of walls and ceilings in the Kitchen 2000 sq. feet of walls and ceilings in the Main Building 1500 sq. feet of walls and ceilings in the Servants' Cottage 2500 sq. feet of walls and ceilings in the President's Home 3000 sq. feet of walls and ceilings at the State Ranch Painted the cow barn, ice house, tunnels and porch.

Respectfully submitted,

Fred J. Low, Teacher of Carpentry.

10 Glazed glasses in windows

PRINTING OFFICE REPORT.

To H. J. Menzemer, President:

I have the honor to herewith submit the following report for the year 1917-1918.

The following jobs were turned out in the printing office.

Acceptance Blanks	75
Affidavit Blanks	2000
Application Cards	250
Bill Heads	500
Circular Letters, Closing of School	200
Circular Letters, Opening of School	200
Contract Blanks	75
Christmas Tags	200
Copies of Insurance Policies	200
Copies of the Rocky Mountain Leader, 12 to 16 pages	
from Oct. 1917 to Oct. 1918	3825
Copies of the Leader, Hallowe'en and Thanksgiving	
Numbers, 16 and 12 pages, printed borders in one	
color on pages and covers for each and binding	400
Daily Attendance Cards	500

Postal Cards, Printed form for the Office	800
Programmes	1050
Report Cards	2500
Requisition Blanks	800
Visiting Cards	300
Tibiting Carab	900

For some time we have been wanting to give our boys instruction on a Linotype. We are fortunate in being able to rent from Mr. Eiselein, the owner of the "Boulder Monitor" his entire printing plant including a first class linotype. This gives our boys a good opportunity to learn the newspaper game.

We wish you to call the Legislatures attention to the need of a linotype for our own printing shop.

Respectfully submitted,

E. V. Kemp, Printer.

OCULISTS AND AURIST'S REPORT.

To H. J. Menzemer, President:

I herewith submit the report in this department for the past year. Though the routine work in the hospital has been much the same this year as in the past, the number of surgical operations were considerably lower than the average. Owing to the severe epidemic existing in the surrounding cities during the fall of 1917 and the spring of 1918, the board very wisely prohibited the visitors from outside, mixing the children. The fall of 1918 opened with another severe epedemic throughout the country. With the natural decrease of resistance in the vitality of the children together with the increased danger of infection at such times, it was decided best to only operate in urgent cases. Those children remainding in the institution, for whom operations were recommended, and then not done, will be taken care of this year when the effects of the present epidemic have passed.

The result of the beneficial work done by the school nurses throughout the state has already shown quite a proportional decrease in the number of children with large tonsils and adenoids entering this school. The small number of pupils entering the school whose blindness was produced by gonorrheal ophthalmia, in proportion to that in similar institutions, speaks volumes for the conscientious attention given the children by their family physicians throughout this state, as well as for the advanced intelligence of our own people.

I wish to take advantage of the opportunity to thank my associate, Dr. A. W. Morse, for taking care of the work during my illness; also to express my appreciation fo the assistance rendered, and the vey kind attention given to all the patients by the local physicians, the nurse and local members of the staff.

Respectfully submitted,

John A. Donovan.

DENTIST'S REPORT.

To H. J. Menzemer, President:

I herewith have the honor to submit my report as dentist for the Montana School for Deaf and Blind for the year 1917-18.

During the year I put in 50 fillings, extracted 30 teeth and treated 50. All pupils have been carefully examined, and at the close of the school year, all their teeth were in good shape.

Respectfully submitted,

Dr. C. M. Eddy.

REPORT FROM DEPARTMENT FOR BACKWARD CHILDREN.

I have the honor to submit herewith the twenty-fourth annual report for th $_{\tilde{c}}$ Department for Backward Children.

The general good health for the past year was marred by an epidemic of Spanish Influenza which caused a number of deaths in our family of children.

Our girls and boys do nearly all the work in the various departments of the institution department for Backward children, being taught to care for their respective dormitories and sitting rooms, as well as making themselves useful in the kitchen and dining rooms.

The school teaches the things most practical for the children's usefulness and happiness.

Both girls and boys are quite proficient in making fancy work of different kinds for which there has always been a ready sale. The money being used for their own happiness and pleasure.

The Sloyd room has proved a place of interest to some of our boys this year. They have been taught the names, uses and proper care of all the tools, and have learned to handle them properly by daily practise. A number of pieces of furniture have been substantially repaired by the boys in this department.

The children assemble in the Auditorium every morning at nine, under the supervision of teachers and officers, to listen to suitable stories which point a moral and adorn a tale. The exercises are interspersed with appropriate vocal and instrumental music.

The Sunday school is a special feature of the week. A biblical lecture by the director, and the regular Sunday School lesson by a teacher, with appropriate music by a choir of trained voices, constitue the Sunday program.

Hallawe'en, Thanksiving, Christmas, New Year, Lincoln's Birthday, Washington's Birthday, Easter Sunday and Arbor Day were each celebrated in a manner fitting the occasion, and no pains were spared nor was labor too arduous to dampen the fervor of th officers and teachers having the festivites in charge.

Physical development—weight and height—is determined monthly by the scales. The mental condition is decided thru the medium of the Binet Mental Test during the term.

There are three new teachers enrolled on our staff to fill the three vacancies caused by the resignation of the three who resigned last year.

There have been the usual changes incident to institutional life, both among officers and teachers. Mr. John W. Hamor, the Boys' Supervisior, resigned December 6th, 1917, to volunteer his service for his Country's honor.

All the boys of maturer years were transferred to the ranch colony, and a matron put in charge of the smaller boys, who remained in the school department.

It gives me pleasure to say that our present corps is efficient.

In fine I desire to thank the Management for the many courtesies extended to myself, the official family and our children, and to further state my appreciation of the support given me at all times and upon all occasions while laboring for the welfare of all concerned.

Respectfully submitted,

Thomas Alexander Smith, Director.

SEWING ROOM REPORT—BACKWARD DEPARTMENT.

To H. J. Menzemer, President:

I have the honor to submit the following report for the year 1917-1918.

100 Pillow cases 51 Bath towels 5 Table cloths

78 Roller towels 61 Sheets 7 Dozen napkins

Respectfully submitted,

Mollie Slack,

Girls' Superisor.

ENGINEER'S REPORT.

To H. J. Menzemer, President:

Since my last report this department has completed the following work:

Installed an 8"x4½x36" deep well pumping engine for use as a service pump, which leaves us the old duplex steam pump as a reserve unit in case of fires. We bricked up under the dry chues of the boilers to protect them from burning. Renewed various hot water pipes around the plant which showed signs of giving out soon. Extended the outside lighting system to the front of the Feeble-minded Building where oranmental lights were erected along the driveway and a light installed over the front door of the Feeble Minded Building. The Electric clocks and house telephones at the Deaf and Blind buildings were thoroughly overhauled and placed in good working order, also 2 new phones added to the system.

The cold storage plant at the ranch was overhauled and placed in good order.

Pipe work on the new bridge was completed—the steam pipes covered with pipe covering and packed in the conduit with mineral wool.

The laundry machiners was inspected and all necessary repairs made.

The engine room walls were painted and all the pumps, boiler fronts and piping in the plant painted. The stokers were overhauled and all worn castings replaced with new ones. The coal we are now getting is very clean and gives good results under our boilers.

I would recommend that some coal handling machinery be installed to handle the coal from the cars into the coal bunkers, as this requires a great deal of labor especially after their bunkers are partly filled.

Respectfully submitted,

V. T. McKinnon, Head Engineer.

PUPILS IN SCHOOL LIST.

FROM NOVEMBER 1, 1917 TO NOVEMBER 1, 1918
